Connecticut Electronic Filing Opt-Out Form

Conn. Agencies Regs. **Section 12-690-1** requires return preparers who prepared 50 or more Connecticut income tax returns **to file all Connecticut personal income tax returns electronically** using the Federal/State Electronic Filing Program (e-file).

Electronic filing offers the following benefits:

- Allows the Department of Revenue Service (DRS) to process returns quickly and accurately, saving tax dollars.
- Taxpayers who have a return with a balance due can file early and can choose to pay the tax due anytime on or before April 15.
- Taxpayers who electronically file their return receive refunds within a few days; compared to six - eight weeks for paper-filed returns.
- Electronically filed returns receive an acknowledgement of receipt from the Internal Revenue Service (IRS) and the State of Connecticut and are verified to be mathematically correct, eliminating data entry errors and lost or misplaced mail.

Electronic filing was offered to me by my tax return preparer and its benefits were explained. I elect NOT to file my income tax return electronically for the current tax year of _____.
